ABOUT

I am a final year undergrad of ECE branch. As a passionate Software Developer, I will be elated to see an opening for a Junior Software Developer role. I have project based experience in HTML, CSS, Bootstrap, JavaScript, React.Js and have strong command in DSA in C++ language and still exploring other technologies and frameworks that catch my interest.

TECH SKILLS

- Web development
- Front-end development
- HTML
- CSS
- JAVASCRIPT
- React.Js
- Bootstrap
- C++
- Data structures and algorithms

PROJECTS

NEWS WEBSITE

The project involves creating a news website by utilizing the NewsAPI service. The goal of this project is to develop a user-friendly website that aggregates news articles from different sources and presents them in an organized and accessible manner.

CODE EDITOR

The Code editor specifically designed for web development, providing an integrated environment for coding in HTML, CSS, and JavaScript. It offers a range of features and functionalities to enhance the coding experience and improve productivity.

MUSIC PLAYER APP

A music player app solely made upon HTML, CSS, JavaScript which describes my advance frontend web dev skills.

WEATHER FORECAST

The project involves creating a Weather Forecast App by using the Openweather api. The goal of this project is to make a user-friendly website that gives weather information of that location and presents them in an organized and accessible manner
